Physician-Musician on a Mission, Dr. Kenny Davin Fine, hosts “The Gluten Truth Meets the Circle of Life” Conference, welcoming International doctors, and Releasing “Memphis Rising” CD at Concert Finale

Dallas (June 15, 2011) – Kenny Davin Fine, medical doctor, singer-songwriter, and spiritual journeyman, will host “**The Gluten Truth Meets the Circle of Life: A Tale of Two Hemispheres**” Conference at the Westin Galleria Dallas November 3-6, 2011. The event will stimulate both sides of your brain with the latest scientific information, creativity and entertainment. The scientific sessions welcome high-powered International and Dallas medical/research experts on gluten sensitivity. The event will feature a Gluten-Free menu and its entertainment finale will include the “**Memphis Rising**” CD Release Launch Party and Concert at the Lakewood Theatre in Dallas. The concert event, celebrating the homecoming of Kenny Davin Fine, the long-time Lakewood resident, will include a live performance by the singing doctor and his band with dancing, a cocktail reception, an organic, Gluten-free dinner and after-concert party.

Kenny Davin Fine, M.D. has spent his career... his life serving people with his knack for knowledge and Truth, his G-d given creative talent, and his goodness of heart. A self-proclaimed “Physician-Musician on a Mission”, Kenny marries his love of science and his successful medical career with his musicality and creative spirit, to not only deliver Health, Happiness, and Hope to a society in much need of such, but also to bring people to the goodness of G-d as well. A Renaissance man, Kenny Davin Fine believes that to be the best version of ourselves, we must utilize both sides of our brain, to be “dually hemispheric” as he says, and to identify our “True and Only” selves, bringing that Truth to others and inspiring them to pay it forward.

This event is the culmination of The Six Sides of Service (SixSOS), which forms the heart of Dr. Ken's mission and is a culmination of his life and career in spreading goodness through Science and Medical Innovation, Public Health Education, Organic SuperFood Solutions, Original Songs - Music and Lyrics, a Musical Children's Health Curriculum, and a Spiritual Health Initiative. It is his desire to inspire us to our highest potential that has fueled the evolution of more than a decade of online service-oriented websites into SixSOS.org.

“The Gluten Truth' speaks to the fact that almost all people adversely affected by eating wheat, barley, rye and oats (gluten), have what we call non-celiac gluten sensitivity rather than the more traditionally described syndrome known as celiac disease. There have never been conferences except for ours that address this fact in a way to benefit the gluten sensitive individual without the rare celiac disease,” comments Dr. Fine. “I am privileged to have been on the cutting edge of this research for 22 years, a subject that only now is becoming mainstream. I am also privileged to be in such high powered academic company with the other speakers at this conference. Edutaining with both sides of my brain will also surely benefit both sides of the attendees' brains, bodies, and souls!”

Within each of The Six Sides of Service and their importance to Kenny Davin Fine - the Physician, the Musician, the Spiritual Journeyman, the Visionary, and the Missionary - you find many additional sub-sides as well.

1. Science-Medicine Innovation

As a board-certified internal medicine M.D. and gastroenterologist, as a medical researcher and clinical laboratory director, as a nutrition and food sensitivity expert, and since 2000, as an internet medicine pioneer, Dr. Kenneth Fine has been a trailblazer and innovator. (see Enterolab.com)

2. Public Health Education

It was also in 2000 that Dr. Fine founded the IRS-approved, 501(c)(3) Intestinal Health Institute (IHI), a Non-Profit Public Health and Educational Institute, serving as its Director from inception to date. Dr. Fine was one of the first medical doctors to launch such an institute for the purpose of facilitating medical research, while bringing the practical applications of that research directly to the public in both on-line campaigns (at IntestinalHealth.org), and live conferences and seminars (such as the one detailed above).

3. Organic SuperFood Solutions

As the organizer and executor of neighborhood organic food co-ops for more than a dozen years, and with an organic SuperFood web site called TheOrganicAlternative.com, Dr. Fine has another opportunity to share the Goodness, and to preach what he practices. “Let Food Be Thy Medicine” was an ancient dictum that Kenny still upholds today, both in his personal life and in this part of his health service profession. (see TheOrganicAlternative.com)

4. The Healing Voice – Music with a Purpose

Perhaps at the very core of Kenny Davin Fine is his love for music and his desire to ignite the heart-lights in everyone he

meets with his music, words, and song lyrics. A singer/songwriter, Kenny writes and records what he deems “Music with a Purpose: to Entertain, Educate, and Enlighten.” Most recently, he has furthered the missionary function of his music with a social program to “Musically Inspire Goodness... For Goodness’ Sake”, based on the message and lyrics of one of his inspirational songs, “The Circle of Life (There’s no Time to Waste).” (see KennyDavinFine.com)

5. Children’s Health Curriculum

Kenny Davin Fine is a loving father not only to his daughter but to all the children of the world, and it is this love that has been a driving force in the creation and dissemination of his musical children’s health program called “Get on a Mission of Nutrition” (GOAMON). Dr. Fine has incorporated his passion and professional singing and songwriting musical skills into this multimedia public educational campaign that teaches children healthier lifestyles (see GOAMON.org).

6. Spiritual Health Initiative

As a Spiritual Journeyman and a true man of G-d, Dr. Ken travels the country inspiring and spreading goodness and spiritual health. Forming the current core of this Spiritual Health Initiative are his inspirational lectures and musical lectures as part of what he calls “The Higher Truth of Health”, and his active plans for The ReGenesis Center, a Spiritual Health and Healing Center providing educational programs and recreational activities in a beautiful natural setting where people can Re-Create, Re-Juvenate, Re-Orientate, and Re-Treat... ReGenesis.

About Kenny Davin Fine, M.D.

Dr. Kenny Davin Fine launched his medical career at the early age of 23 and has redirected his 23-year academic medical career and research to the development of public health, and dedicates his work, he says, “For Your Health, Happiness, and Hope.” His teachings of both physical and spiritual well-being are his emerging trademark. An internationally renowned intestinal researcher, he heads the non-profit Intestinal Health Institute and Enterolab.com reference laboratory. He has been board-certified in both internal medicine and gastroenterology with a focus on intestinal research and nutritional health. He has been part of Dallas’ academic medical community for 20 years, formerly holding staff positions at both Baylor University Medical Center and the University of Texas-Southwestern Medical School. His medical research publications have appeared in prestigious medical journals including *The New England Journal of Medicine*, *Gastroenterology*, *The Journal of Clinical Investigation*, and *The American Journal of Gastroenterology*. Not just dedicated to the medical profession, his higher calling to music inspired the creation of 7 music CDs and has fueled his popularity as a singer, songwriter, medical doctor and spiritual journeyman.
